

BRIDGESTONE

VSWAS

V-STEEL
SNOW WEDGE
ALL SEASON

G-2

Designed for grader use in very snowy conditions, the VSWAS provides excellent performance in deeper snow. It also performs well in year round use and has design features that reduce stone holdings. Because VSWAS may be used year round, seasonal change-outs are no longer necessary.

ROAD GRADER

GRADER

SPECIALIZED FEATURES

1 DEEP SIPING

Helps provide excellent traction, even late in tread life, which contributes to better braking and handling on snow and gravel

2 TIE BARS WITHIN THE SIPES

Control movement of the tread blocks for long, even wear while combating the retention and throwing of damaging stones

3 GROOVED BEVEL

Patent-pending grooves in lug walls enhance snow traction by shearing multiple layers of snow, not just the top layer

4 UNIQUE TREAD DESIGN

Wide grooves and angled lugs help reduce retention and throwing of damaging stones, while contributing to a comfortable ride

5 CUT RESISTANT COMPOUND

Reduces cutting, chipping and puncturing, extending the life of the tire
